

## LAND USE AND ENVIRONMENTAL AND SOCIO-ECONOMIC VULNERABILITY

Workshop Inra-Cerdi  
Clermont-Fd, 22-23 mai 2018

Mercredi 23 mai 2018

Mardi 22 mai 2018

14h15 - 14h30 | Catherine Araujo Bonjean, CERDI, CNRS-UCA : Ouverture

14h30 - 16h00 | Dominique Bureau, Délégué général du Conseil économique pour le Développement durable (CEDD)

16h30 - 18h30 | Land allocation and the environment

Raja Chakir, INRA, Economie Publique, « Land use and environment »

Sonia Schwartz and Pascale Phélinas, CERDI, CNRS-UCA: "Regulating transgenic soybean production in Argentina »

Phu N'Guyen-Van, CNRS, BETA, "Determinants of pro-environmental collective behavior" co-authored with Anne Stenger and Tuyen T. Tiet

Claire Mosnier, INRA, UMRH, "Les évolutions passées de la PAC et des prix ont-elles incité les éleveurs à se spécialiser au profit d'une seule production animale ou des cultures ? une analyse rétrospective via la modélisation »

19h30 | Dîner

9h00 - 11h00 | Forest Land Conversion

Jean-Louis Combes, Pascale Combes Motel and Sonia Schwartz, CERDI, CNRS-UCA, "Dynamic of deforestation: theory and empirical evidences"

Philippe Delacote, INRA, BETA, "Spatial analysis of avoided deforestation policies"

Julien Wolfersberger, AgroParistech, Economie Publique, "Long-term forest dynamics, development and public policies when taking into account ecological properties".

José Gustavo Féres, IPEA, Fundação Getulio Vargas, "Land use and risk aversion in Brazil"

11h30 - 13h00 | Biodiversity as a production factor

Hervé Dakpo, INRA, Economie Publique, « Spatial aggregation of land uses allocation and pesticide efficiency at landscape level A Multi-ware production approach »

Sébastien Marchand, CERDI, CNRS-UCA, "Climate change, biodiversity and agriculture: evidences from Vietman"

Sylvaine Poret, INRA, ALISS, "What do trout eat: Acceptance of insects in animal feed" co-authored with Pascale Bazoche, INRA, SMART

13h - 14h00 | Déjeuner

14h - 15h00 | Mapping Land Cover Using Remote Sensing Data and GIS Techniques

Antoine Leblois, INRA, BETA, "What has driven deforestation in developing countries since the 2000s? Evidence from new remote-sensing data"

Youven Goulamoussene, MSH, CNRS-UCA, "Utilisation d'un drone équipé d'une caméra multispectrale pour la surveillance de parcelles agricoles"

15h00 - 16h30 | Discussions, concertation suite de l'atelier
